

Summer Workshops

Pre-K/K Age 4-5

Turtle Tracks • June 9-11 or July 14-16

Everything you ever wanted to know about turtles! Find out where they live, what they eat, and enjoy visits from different species.

Night Crawlers • June 16-18 or July 21-23

Why do some animals only come out at night? How can they see in the dark? Find out all about some of your favorite night-time creatures such as owls, raccoons, opossums, bats and more!

Super Minds/Super Bodies • June 23-25 or July 28-30

How do we remember? What makes us so fast and strong? Investigate the wonders of our brains, bodies, senses, and memory.

World Safari • June 30-July 2 or Aug. 4-6

Come take a trip to the seven continents. We will see what plants and animals are found around the world. **\$10 additional supply fee applies.**

Grades 1-2

Scientific Magicians • June 9-11 or July 14-16

Explore the world of magic tricks and expose the science behind the illusions. Learn how science can be masked to look like magic.

MO Wet and Wild • June 16-18 or July 21-23

Come discover the wide variety of plant and animal life that live in and around the watery wilderness of the state of Missouri! Find out how protecting our water is important for the living things that are found in and around our rivers, lakes and streams.

Grossology • June 23-25 or July 28-30

If you like gross, disgusting, slimy and putrid, then this is the workshop for you! From snot, to vomit, to ear wax, to decomposition, this workshop is truly repulsive! **\$10 additional supply fee applies.**

Native American Life • June 30-July 2 or Aug. 4-6

Make traditional tools, musical instruments, food and utensils similar to what Missouri's Native Americans did. Listen to stories and music, learn a Native American dance, and find out some of the fascinating things about Native American people. **\$10 additional supply fee applies.**

Grades 3-5

Cave Explorers • June 9-11 or July 14-16

How are caves formed? How do people explore caves? What creatures live in caves? What has been discovered in caves? All of these questions and more will be answered in this summer's version of this very popular class! **\$10 additional supply fee applies.**

Crime Solvers • June 16-18 or July 21-23

Discover how police use forensic science to collect and understand evidence at the scene of a crime. You'll examine fingerprints, DNA, and blood evidence to solve a variety of crimes using the principles of forensic science.

Animals Inside Out • June 23-25 or July 28-30

Animals up close and personal! Inside, outside and everything in between, includes live animal viewing, preserved specimen dissection. **\$10 additional supply fee applies.**

Movie-ology • June 30-July 2 or Aug. 4-6

What's better than watching movies? – Exploring the science in them of course! Discover the science behind some of your favorite movies as you investigate the environment, ecology, and astronomy in movies. **\$10 additional supply fee applies.**

Grades 6-8

Mix it up! • June 23-25

Create crazy concoctions, amazing mixtures, and mixed-up matter of all sorts as you discover the interesting, strange, and sometimes dangerous reactions involved in Chemistry. Come discover chemistry you can eat, chemistry that burns, and chemistry that will blow you away! **\$10 additional supply fee applies**

Medieval Science • July 28-30

Explore the amazing and even ridiculous ideas that passed for science in the middle ages. Investigate amazing scientific theories for medicine, astronomy, and warfare as you discover more than you ever wanted to know about things like leeches, the bubonic plague and catapults! **\$10 additional supply fee applies**

No Classes the week of July 7-9.

**Great
Minds
at
Play!**
